TECH-KOTE®

Anti-Weld Spatter Technology

TECH-KOTE®

NOT TREATED

TECH-KOTE® is a thermo-chemical treatment for ferrous metals which improves resistance to weld spatter. Additional benefits include:

- Spatter wipes away easily.
- No sprays or liquids to apply.
- Nice matte black finish.
- Also provides corrosion resistance.
- Increased surface hardness.
- Little or no dimensional change.
- Metal treatment (not a coating).
- Light oil application restores shine.
